

**Join us in shaping the new Medical School OWL at Bielefeld University:
Future-oriented, interprofessional, and strong in research and teaching**

The **Medical School OWL** at Bielefeld University intends to fill at the **Klinikum Bielefeld** at the Clinic for Radiotherapy and Radiation Oncology a

Professorship for Radiotherapy & Radiation Oncology (W3)

at the earliest possible date.

At Bielefeld University, an innovative faculty of human medicine with an interdisciplinary individual and population medicine orientation and the University Hospital OWL (UK OWL), with the Klinikum Bielefeld, Evangelisches Klinikum Bethel (EvKB), and Klinikum Lippe as holders, are established. Teaching started in the winter semester of 2021/22. We are looking for personalities who want to seize the development situation and its challenges as a chance and actively participate in research, teaching, patient care, and organization. We offer an exciting environment that opens up a wide range of opportunities. You will be significantly involved in the further planning and implementation of the model study program in human medicine (according to ÄApprO), as well as in implementing the "clinician" and "advanced clinician scientist" programs, and you will have the opportunity to apply innovative concepts in teaching. At the same time, you will take on a significant role in developing an interconnected, inter/nationally competitive research profile "Medicine for people with disabilities and chronic diseases". For more information, please visit <https://www.uni-bielefeld.de/fakultaeten/medizin/forschung/profil/>.

The call aims at personalities with an already established national and international profile who can represent the field of expertise in research, teaching, and patient care in its entirety.

The prerequisites are

- specialist qualification for radiotherapy,
- relevant doctorate, and additionally scientific achievements according to § 36 paras. 1; no. 4 HG NRW,
- high-ranking scientific achievements reflected in corresponding publications and third-party funding,
- extensive clinical experience in the field of expertise as well as leadership experience,
- profound experience in the design and implementation of clinical studies,
- connectivity to the research profile of the Medical School OWL,
- extensive and innovative teaching experience for the subject to be presented,
- experience and active involvement in the quality-oriented promotion of young scientists.

In addition to clinical research in the context of large-scale clinical studies, also linked to the methodological approaches of implementation research, a substantive focus on clinical-experimental issues such as the further development of personalized treatment strategies for patients with solid tumors through use of molecular data and artificial intelligence is of particular interest.

As the holder of this position, you will be responsible for the management and results of the clinical, personnel and economic development of the Clinic for Radiotherapy and Radiation Oncology at Campus Klinikum Bielefeld, University Hospital OWL of Bielefeld University, in a specialist and interdisciplinary context. In this role, you will also manage the hospital's community health center (MVZ) for radiotherapy. With 3 locations and 2 MVZs, Klinikum Bielefeld, as a municipally owned hospital and member of the Alliance of Large Municipal Hospitals in Germany, is responsible for the clinical diagnosis, therapy and care of 50,000 inpatients and 100,000 outpatients annually at maximum care level. The designation of Klinikum Bielefeld as an Oncological Center of Excellence has been applied for.

As holder of this position, you will be responsible for the further development and scientific anchoring of the existing focus areas of clinical care in radiotherapy and radiation oncology: The treatment spectrum includes conventional and intensity-modulated teletherapy (3D techniques, IMRT and VMAT, DIBH) as well as intracavitary and interstitial brachytherapy. In the future, this profile will be supplemented by stereotactic procedures. To fulfill this range of tasks, the Clinic for Radiotherapy and Radiation Oncology was extensively modernized in 2020 and equipped with the latest generation of devices:

- 2 x linear accelerators (TrueBeam, Varian) and an afterloading device (Bravos, Varian)
- CT device (Aquilion LB, Canon)
- 4D system for radiation planning (Eclipse, Varian)
- surface scanning system for monitoring patient's positioning (Identify, Varian)
- breath-triggered irradiation control system.

We expect networking with other UK OWL clinics, other faculties of Bielefeld University, and the medical community in private practice in the region. Accordingly, we are looking for a personality with leadership experience and expertise in the entire field and excellent communication and coordination skills.

The Klinikum Bielefeld aims to increase the proportion of women in management positions and therefore strongly encourages women to apply. The Klinikum Bielefeld stands for a family-friendly working environment tailored to your wishes and requirements. We offer an in-house daycare center with the option of bilingual education.

For the appeal applies:

A private-law employment contract with the University is envisaged for the performance of the duties of the professorship. The requirements for employment follow § 36 HG. The tasks within patient care, including the right to liquidation, will be regulated via a contract for chief physicians with the Klinikum Bielefeld.

Applications from suitable persons with severe disabilities and persons with disabilities of equal status are expressly encouraged.

Bielefeld University has received several awards for its successes within equality and is certified as a family-friendly university.

The university pursues a committed equal opportunities policy concerning the appointment of professorships, among other things, and would expressly like to invite qualified female applicants to apply. Applications are treated in concert with the State Equality Act. Family times will be considered in the context of the selection decision.

The Medical School OWL and the Klinikum Bielefeld consider equality between women and men to be one main task, and the future jobholder will be involved in its implementation.

Bielefeld University promotes dual-career couples and supports them in creating a common place of work and life.

Please submit your application by **16.06.2022** via the online appointment portal of Bielefeld University: <https://berufungen.uni-bielefeld.de/>

In addition to the usual application documents and information, we ask you to submit each a 2-page teaching and research concept paper and a concept concerning patient care. These concept papers should integrate gender- and diversity-specific content relevant to the advertised professorship. We expect a brief description of your previous and planned gender equality activities, besides, particularly for the promotion of young female scientists and the compatibility of career and family.
