

The **Medical School OWL** at Bielefeld University intends to fill a

Professorship for Experimental Endocrinology (W2)

at the earliest possible date, limited for 5 years.

We are looking for personalities with a promisingly national and international profile who can represent the field of expertise in research and teaching in its entirety. We offer you the opportunity to actively contribute to the development of the Medical School OWL in an exciting environment. Your tasks will include, among other things, the competitive establishment and management of basic-science-orientated research with clinical relevance in the field of endocrinology. In this context, you cooperate closely with the Department for General Internal Medicine, Endocrinology, Diabetology and Infectiology at Klinikum Bielefeld. The professorship is expected to be characterised by promising scientific expertise in a future-oriented research field of endocrinology. A prospective focus on clinical-experimental issues on the endocrinology of aging is desirable.

You find a detailed job description online at

https://www.uni-bielefeld.de/uni/karriere/professuren/wiss3059_englisch.xml

Applications from suitable persons with severe disabilities and persons with disabilities of equal status are expressly encouraged. Bielefeld University pursues a committed equal opportunities policy and would explicitly like to invite qualified female applicants to apply. Family times will be considered in the context of the selection decision.

Please submit your application online via the appointment portal of Bielefeld University <https://berufungen.uni-bielefeld.de/> by **18/07/2024**. In addition, we ask you for 2-page concepts for research and teaching, in which gender- and diversity-specific content is integrated, as well as an equal opportunity concept.

For further questions and information, contact the Dean, Prof. Dr. med. Claudia Hornberg (dekanin.medizin@uni-bielefeld.de), and the Director of the Department for General Internal Medicine, Endocrinology; Diabetology and Infectiology, Prof. Dr. med. Joachim Feldkamp (joachim.feldkamp@klinikumbielefeld.de).
